1.0 Assessment Guidance

Unit Aim

This unit will allow Learners to demonstrate competency in preparing, cooking and finishing dough products.

Achieving Practical Learning Outcomes

Your Assessor will assess your performance of practical tasks by observing your activities. The minimum number of competent assessments required for each Assessment Criteria in this unit is three, this must be signed off in the Practical Assessment Checklist by providing a date against each Assessment Criteria when the Assessment Criteria has been practically demonstrated. You must provide a detailed account of the activities that took place for each assessment in the Learner Activity Log section of this workbook. Your Assessor will also provide comments and sign off to confirm the accuracy of your account the Assessor comments section of this workbook.

Assessment Criteria may not always naturally occur during a practical observation. In such instances you will be asked questions to demonstrate your competence. Your Assessor will document that the Assessment Criteria that have been achieved through oral questioning. Your Assessor will sign off this unit in the Unit Declaration section of this workbook when all Assessment Criteria have been competently achieved.

Minimum Range

All minimum ranges must be practically evidenced through direct observation. The minimum range is indicated for each Learning Outcome in this workbook. A checklist has been provided for you to record the date of the assessment where the range has been observed.

2.0 Practical Assessment Checklist

Assessment Criteria (AC)	You must practically demonstrate that you are able to:	Assessment 1 Date	Assessment 2 Date	Assessment 3 Date	Assessment 4 Date
LO1 Prepare dough products					
AC 1.1	Check ingredients to make sure that they meet requirements	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 1.2	Select and use the correct tools and equipment	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 1.3	Prepare dough products to meet requirements	yes 24/10/25	yes 31/10/25	yes11/7/26	
LO2 Cook dough products					
AC 2.1	Select and use the correct tools and equipment	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 2.2	Cook dough products to meet requirements	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 2.3	Check cooked dough product qualities	yes 24/10/25	yes 31/10/25	yes11/7/26	
LO3 Finish dough products					
AC 3.1	Finish dough products to meet requirements	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 3.2	Present dough to meet requirements	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 3.3	Safely store any dough products not for immediate use	yes 24/10/25	yes 31/10/25	yes11/7/26	

Assessment Criteria (AC)	You must practically demonstrate that you are able to:	Assessment 1 Date	Assessment 2 Date	Assessment 3 Date	Assessment 4 Date
LO4 Work as an effective member of the team					
AC 4.1	Communicate in a way that is suitable to the situation and needs of others	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 4.2	Follow workplace rules and procedures relating to conduct and behaviour	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 4.3	Report issues and challenges to line managers in a timely manner	yes 24/10/25	yes 31/10/25	yes11/7/26	
LO5 Follow health and safety procedures					
AC 5.1	Identify any hazards or potential hazards and deal with these correctly	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 5.2	Follow health and safety procedures during work	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 5.3	Practise emergency and fire safety procedures correctly	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 5.4	Follow workplace security procedures	yes 24/10/25	yes 31/10/25	yes11/7/26	
LO6 Follow hygiene procedures					
AC 6.1	Follow workplace standards for personal hygiene	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 6.2	Follow workplace standards for maintaining the cleanliness of work areas	yes 24/10/25	yes 31/10/25	yes11/7/26	
AC 6.3	Follow workplace procedures for handling and storing food	yes 24/10/25	yes 31/10/25	yes11/7/26	

Minimum Ranges

All minimum ranges must be practically evidenced through direct observation by a person who is suitably qualified. The minimum range of what is required to be practically assessed is indicated below. Centres/Learners are advised to use this table to record details of assessment.

Learning Outcome 1, 2 and 3: Prepare and cook and finish dough products

Minimum range **Please insert the date when assessment observation occurred**	**Assessment 1 Date**	**Assessment 2 Date**	**Assessment 3 Date**	**Assessment 4 Date**
Learners must evidence 4 dough products				
• Bread and rolls	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Bun dough	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Naan	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Pitta bread	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Pizza dough	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Soda bread dough	yes 24/10/25	yes 31/10/25	yes11/7/26	
• White dough	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Wholemeal dough	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Other (please state)	yes 24/10/25	yes 31/10/25	yes11/7/26	

Learning Outcome 1, 2 and 3: Prepare and cook and finish dough products

Minimum range Please insert the date when assessment observation occurred	Assessment 1 Date	Assessment 2 Date	Assessment 3 Date	Assessment 4 Date
Learners must evidence 6 preparation and cooking methods (across the 4 dough products)				
• Baking	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Kneading	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Knocking back	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Measuring	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Mixing	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Proving	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Shaping	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Sieving	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Steaming	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Weighing	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Other (please state)	yes 24/10/25	yes 31/10/25	yes11/7/26	
Learners must evidence 2 finishing methods				
• Bun wash	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Egg wash	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Icing	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Flour	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Seeds	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Sugar	yes 24/10/25	yes 31/10/25	yes11/7/26	
• Other (please state)	yes 24/10/25	yes 31/10/25	yes11/7/26	

4.0 Learner Activity Log

This section is for you to complete with the details of the activities you have been assessed on and any additional evidence e.g., photographs, written client feedback or witness testimonies. You must provide detailed accounts of the activities undertaken for assessment. **Please copy these pages as many times as needed to evidence all assessment activities.**

Top Tips

Ensure the dates of your Learner Activity Log match your assessment dates

Ensure your Learner Activity Logs provide a clear description of the activities you have carried out

Ensure you add additional evidence to each activity log, this could be photographs, client feedback or witness testimonies

4.0 Learner Activity Log

Assessment 1 Date: 24/10/2025
I washed my hands and collected the equipment and ingredients used in the practical session. I measured the ingredients using a weighing scale for the white bread and bread rolls. I then made the dough, molded the bread and the rolls placed them in a baking tray and kept them in the oven for baking. Meanwhile, I washed the equipment, returned them together with the ingredients back to the store, and washed the kitchen floor for the next practical. I then removed the bread and rolls and plated them for presentation purposes. After the presentation, i then cleared the presentation plates, washed and then returned them back to the store.

Assessor Comments:

4.0 Learner Activity Log

Additional Evidence:
Fresh yeast-10g Water at approximately 22-24 degrees-350g Strong white flour-500g Good quality salt-7g   Method of work 1. Preheat the oven to 220 degrees. 2. In a bowl,mix together the water and fresh yeast. Ensure the yeast has completely dissolved in the water. 3. Combine the flour and salt and add the yeast liquid. Mix well. 4. Create soft,slightly sticky dough,resisting the temptation to add any more flour that might dry out the dough. 5. Scrape any excess ingredients and dough off the sides of the bowl and knead together. Leave the dough to rest for about 10 minutes. 6. Place the dough into a stainless steel bowl,cover with a damp cloth or plastic film and place in a proofer or warm place for bulk fermentation. The bft should be approximately 30-45 minutes7. Carefully knock back the dough and knead lightly by folding over itself. Leave to rest for further 10 minutes. 8. Prepare the sheet by lightly greasing it. Divide the dough into two or four equal pcs and shape each pc into balls. Leave them to rest under cover for a few minutes before rolling them out with the palm of your hand to an elongated oval shape. Place them side-by onto a baking sheet. Alternatively for the bread rolls, scale off the dough at 45g each to shape into smaller balls then shape them accordingly before setting in the baking sheet. 9. Place into a prover to double in size. The prover should be set approximately 30-36 degrees. 10. Dust some flour onto the top of the loaf and score each loaf with a sharp blade. Finish the bread rolls with seeds,egg wash or flour and place into the preheated oven. After 15 mins reduce the heat of the oven to 190 degrees and bake for 25 minutes for the loaf or further 15 mins for the bread rolls. 11. Remove from the oven when baked and leave to cool

4.0 Learner Activity Log

Assessment 2 Date: 31/10/2025
I eneterd the kitchen and collected the equipment and ingredients for the practical session. I started with measuring the ingredients for naan bread using a weighing scale. I then mixed the ingredients in a bowl. I then kept the dough in a baking tray and kept in in the oven. Meanwhile, I continued making the soda bread mixed all the ingredients in a bowl and made the dough and kept in on a baking tray and then kept it in the oven for baking. Meanwhile, I cleared the dishes and floor and arraged them. I then removed my breads from the oven and presented them and returned the equipment and ingredients back to the store and washed the kitchen floor. After the presentation, i then cleared the presentation plates, washed and then returned them back to the store.

Assessor Comments:

Additional Evidence:
NAAN BREADS-4 breads. Ingredients;serve 4 breads. Water at 22 degrees-150ml. Fresh yeast-5g. Soft white flour-250g Plain yoghurt-50g Good quality salt-3g Baking powder . Sunflower oil Method of work. 1. Mix the water and the yeast together and add half of the flour. Mix well. 2. Stir in the yoghurt ,remaining flour ,and salt baking powder. Mix well to a dough. 3. Knead lightly and let it rest. 4. Divide the dough into equal pieces and knead each piece on a floured surface. 5. Mold them to oval shape and arrange them on a baking tray. 6. Bake until the dough is cooked SODA BREAD-1 LOAF OR 18 ROLLS INGREDIENTS;SERVE 1 LOAF OR 18 ROLLS Soft whole meal flour-150g Soft white flour-180g Good quality salt-4g Bicarbonate of soda-4g Baking powder-5g Butter milk-290g Method of work. 1. Preheat the oven to 200 degrees. 2. Sieve all dry ingredients together and create a well at the center. 3. Pour the buttermilk and mix lightly to form a soft and sticky dough. Let it rest for five minutes covered with a clean cloth. 4. Knead lightly and rest it again.

Assessment 3 Date: 11/7/26
I collected the equipments and ingredients for the practical. I measured all the ingredients for the buns using a weighing scale.I then mixed them in a mixing bowl and made a dough then cut and shaped them into buns then baked them in a preheated oven. After baking, I then plated them for presentation purposes. After the presentation, I cleared the dishes, returned the ingredients and equipment to the store.

Assessment 4 Date:

Assessor Comments:

Additional Evidence:

Baked Bao Buns
Ingredients For the
Turmeric Dough
2.5 cups (325g) bao flour (or all-purpose flour)1.5 teaspoons ground turmeric1.5 teaspoons instant yeast1 tablespoon sugar1/2 teaspoon yeast 10g
pinch of salt 3/4 cup (180ml) warm water (around 100¡F / 38¡C) and 200ml milk
1 tablespoon vegetable oil (plus extra for brushing)

Instructions:
Mix the Dry Ingredients Whisk the flour, turmeric powder, instant yeast, sugar, , and salt together in a large mixing bowl until the yellow turmeric is evenly distributed.2. Knead the Dough Pour the warm water ,milk and vegetable oil into the dry mixture.Stir with chopsticks or a spatula until a shaggy dough forms.Turn the dough out onto a clean surface and knead for 8 to 10 minutes until it becomes perfectly smooth, elastic, and uniformly golden yellow.

Roll out, cut into circles, oil the surface, and fold them into the classic clam-shell shape over a piece of parchment paper.Second Rise: Let the shaped buns rise on a baking sheet for 30 to 45 minutes until puffy.Egg Wash (Crucial): Whisk 1 egg with 1 tablespoon of water. Gently brush the tops of the buns right before baking. This gives them a shiny, deep golden pastry finish.Bake: Bake at 350¡F (175¡C) for 12 to 15 minutes until the tops are golden brown and sound hollow when tapped.Finish: Brush with a tiny melt of butter immediately out of the oven to keep the crust soft

5.0 Unit Completion Declaration

I certify that the evidence submitted for this unit is my own. I understand that false declaration is a form of malpractice.	**Learner signature:** G. I .C	**Date:** 11/7/2026

6.0 Teaching Content

LO1 Prepare dough products

Products: white dough, wholemeal dough, bread and rolls, naan, pitta bread, pizza dough, soda bread dough, bun dough.

Ingredients for dough products: flour including strong plain white, wholemeal, wholegrain, flour improvers, yeast including dried, fresh, other ingredients including fats, eggs, water, milk, salt, seeds.

Quality points in ingredients: appearance, colour, odour, and flavour.

Tools and equipment: proving cabinet, mixers and attachments, small equipment including trays, tins, weighing scales, scrapers, brushes, cloths, knives.

Preparation methods: weighing, measuring, sieving, mixing, kneading, proving, knocking back, shaping.

LO2 Cook dough products

Tools and equipment: ovens, small equipment including trays, tins, cooling racks, scrapers, brushes, cloths, knives.

Cooking methods: baking, deep frying.

Qualities: flavour, colour, texture, crumb colour, bread formulation, freshness, protein content.

6.0 Teaching Content

LO3 Finish dough products

Finishing methods: egg wash, flour, seeds, bun wash, sugar, quality of products, identification of possible faults in yeast dough products.

Presentation: style, flair, modern, traditional, experimental.

Safe storage: suitable containers, freezer, bags, wrappers, appropriate temperatures.

LO4 Work as an effective member of the team

Communication:

- spoken e.g., tone of voice, terminology.
- written e.g., documents, forms, reports, presentations.
- body language e.g., posture.

Situations: formal, informal, queries or requests, complaints.

Codes of conduct: workplace policies, rules and procedures.

Reporting: supervisor, line manager, problems, issues, queries.

6.0 Teaching Content

LO5 Follow health and safety procedures

Common workplace hazards: slips, trips, falls, breakages, hot surfaces, chemicals.

Health and safety procedures: following fire regulations, fire drills, evacuation, manual handling, safe use of chemicals, report accidents, first aid.

Workplace emergencies: accidents, fire, breaches of security, illness.

Emergency procedures: raising alarm, calling emergency services, firefighting equipment, evacuation procedures.

Security procedures: control of keys, electronic systems, surveillance, control of entrances and exits, staff and visitor identity badge, reporting of suspicious persons and packages to line manager.

LO6 Follow hygiene procedures

Personal hygiene:

- clean clothing, footwear and headgear.
- hair neat and tidy.
- wear a head covering e.g., hairnet, hat.
- washing hands.
- no jewellery.
- cover cuts and grazes.
- report illness and infections to the proper person.

Cleanliness of work areas: clean cloths for wiping and cleaning between tasks, equipment used for preparing, displaying and serving food are clean and in good condition, waste disposed of promptly, hygienically and appropriately, use of correct cleaning chemicals.

Handling and storing food:

- covering food, separation of raw and cooked food, contact surfaces and equipment.
- storage temperatures e.g., fridge, freezer.
- food labelling and dates.
- food temperatures e.g., cooking, serving re-heating
- cleaning and washing-up procedures.
- handling of food waste.
